## Welcome to TeamKCI

For over thirty years TeamKCI has supplied and supported switching and connectivity products to America's largest corporations and government agencies. Over the years platforms and manufacturers have changed but the basic need to access and switch large volumes of data has grown exponentially. Across the span of three decades, from Bus & Tag to ESCON to FICON to Fibre Channel, TeamKCI has developed unique and exceptional technical competencies in SAN architecture, switching, storage, networking and connectivity.

Let TeamKCI help you design the most cost-effective Storage Area Network solution.
